

ZAHYRA OTERO

New York, NY | (334) 216-9422 | zlm228@nyu.edu | <https://github.com/zlm228>

EDUCATION

New York University, College of Arts and Sciences, New York, NY
Bachelor of Arts, Computing and Data Science
Overall GPA: 3.91

May 2028

EXPERIENCE

Accounts Payable Assistant Intern, **Personal Touch**, Demopolis, AL Summer 2024 & 2025

- Processed and organized 200+ financial records and receipts, using digital systems to improve data accessibility and accuracy.
- Communicated with clients via phone and email to resolve billing questions and update account information.
- Improved organization of administrative workflows, helping streamline document tracking and reduce delays.

Cashier, **Soggy Bottom Lodge**, Linden, AL Summer 2025

- Managed high-volume transactions using POS systems, maintaining accuracy in cash handling and digital payments.
- Resolved customer inquiries efficiently, strengthening communication and problem-solving skills.
- Monitored inventory levels and restocked merchandise to support smooth daily operations.

LEADERSHIP ACTIVITIES

First-Gen Ambassador, **First Generation Club (NYU London)** Sept. 2024 – Present

- Managed cash flows of the organization from membership fees, institutional allotment, and annual events.
- Collaborated with officers to organize weekly meetings and planned 4-5 events per semester.

PROJECTS

Study-Space Web App, **Tech@NYU (Tech Treks Program)** Jan. 2026 – Present

- Built a full-stack web application using React, Tailwind CSS, and Python to help users discover and filter study spaces.
- Integrated frontend and backend systems using APIs and dynamic routing.
- Designed interactive, user-friendly UI components and filtering systems for real-time data display.
- Collaborated with a team using GitHub to develop and iterate on features. ([link](#))

Course registration system Feb. 2026

- Developed a course registration system in Java with role-based access for Admin and Student users, including course enrollment and management features.
- Built an interactive Java Swing GUI to support dashboards, user input validation, and reporting functionalities.
- Applied object-oriented programming principles and implemented data persistence using file I/O and serialization. ([link](#))
